BRIEF SUMMARY

Experienced Software Developer with 1.5+ years of expertise in Spring Boot, Hibernate, and JPA. Proficient in full-stack development, leveraging HTML, CSS, JavaScript, and AWS to create robust web applications. Successfully led backend development for MG's Indian Mini Crossword and contributed to projects in diverse domains. Demonstrates strong problem-solving skills, agile methodologies, and a commitment to continuous learning. Seeking opportunities to drive impactful projects and deliver high-quality software solutions.

KEY EXPERTISE

Java   Spring Boot   Hibernate   JPA   Thymeleaf   Servlets   JSP   JDBC   API   MySQL   MongoDB   Microsoft Azure   AWS   JSON   XML   GitHub   PHP   JavaScript   Bootstrap   Tailwind CSS   HTML   CSS   Problem Solving   Adaptability

EDUCATION

MIT - School of Management   2021 - 2023
M.C.A. - Computer Application | CGPA: **9.46** / **10**

Rayat Shikshan Sanstha's DP Bhosale College, Satara   2017 - 2021
BSc - Chemistry | Percentage : **53** / **100**

Rayat Shikshan Sanstha's DP Bhosale College, Satara, Koregaon   2017
12th | MSBSHSE | Percentage: **48.62** / **100**

The Modern English School, Koregaon, Koregaon   2015
10th | MSBSHSE | Percentage: **73.80** / **100**

PROFESSIONAL EXPERIENCE

ASDR Infotech | IT / Computers - Software   01 Aug, 2023 - Present
Junior Software Developer
• Developed and maintained full-stack web applications using Java Spring Boot, Hibernate, JPA, HTML, CSS, and JavaScript, ensuring seamless backend integration with MySQL and MongoDB.
• Implemented and optimized RESTful APIs, enhancing system performance and enabling efficient communication between client-side applications and server-side services.
• Deployed and managed applications on Microsoft Azure and AWS, improving scalability and reliability through effective cloud solutions and agile methodologies.

INTERNSHIPS

ASDR Infotech | IT / Computers - Software   23 Jan, 2023 - 23 Jul, 2023
Software Engineer Intern
• Contributed to the development of AgileTime ETS, a PHP-based employee activity tracking system, by implementing key features and optimizing performance for enhanced user experience.
• Collaborated with the development team to solve critical issues and improve system stability, demonstrating problem-solving skills and technical proficiency.
• Transitioned to a full-time role by consistently delivering high-quality code and taking initiative on various development tasks.

EdERA Pvt Ltd | IT / Computers - Software   12 May, 2022 - 12 Aug, 2022
PHP Developer
• Enhanced functionality and performance of various NGO projects through effective PHP development, significantly improving system stability and impact.
• Identified and resolved critical bugs in existing PHP projects, demonstrating strong debugging and problem-solving abilities.
• Gained practical experience in PHP frameworks, building a solid foundation for backend development in future roles.

PROJECTS

MG's Indian Mini Crossword
13 Feb, 2024 - 24 May, 2024

Mentor: Ram Sonone | **Team Size:** 5

Key Skills: PHP   Javascript   MySQL   XML   Bootstrap   HTML   CSS

Project Link: https://mangeshghogre.com

Developed "MG's Indian Mini Crossword," a platform for renowned Indian crossword constructor Mangesh Ghogre. Managed backend tasks including user authentication, puzzle management, results tracking, leaderboard, scoring, and paywall integration for premium puzzles. Enabled features like smart timer, word reveal, social media sharing, and analytics. Additionally, supported hosting and enhancing user experience.

EduHub
01 Dec, 2023 - 01 Feb, 2024

Mentor: Deepali Sonone | **Team Size:** 2

Key Skills: Spring Boot   JPA   Hibernate   Thymeleaf   MySQL   HTML   CSS   Javascript   Bootstrap

ASDRLMS is a Spring Boot-based educational platform with modules for Teachers and Students. Teachers can create batches, courses, and classrooms, assign diverse assignment types, and manage a free book library. The platform prioritizes user-friendliness, featuring forgot password functionality and alerts for an optimal learning experience.

PUBLICATIONS / RESEARCH / WHITE PAPERS

The Impact of Artificial Intelligence on Software Development

Information Technology | **Mentor:** Dr Harshali Patil | **No. of Authors:** 1

Key Skills: Software Development   Artificial Intelligence   Machine Learning

This paper delves into the potential of AI & ML in software development. With more data & computing power available, these technologies offer chances to automate tasks & enhance the software development process. The introduction highlights AI & ML's role in reshaping software development, stressing their potential to boost productivity, code quality, & efficiency. It also underscores the need to grasp their effects on practices to fully utilize advantages & tackle challenges. The introduction outlines the paper's goal to examine AI & ML's impact on software development, offering insights for practitioners & researchers.

ASSESSMENTS / CERTIFICATIONS

AWS Cloud Technical Essentials Certificate
Aggregate: 100 / 100

HTML, CSS, and Javascript for Web Developers
Aggregate: 100 / 100

Microsoft Certified: Azure Fundamentals
Aggregate: 96 / 100

PERSONAL INTERESTS / HOBBIES

- Programming, Reading, Traveling.
